

Looking at materials through the lens of the 2023 CA Math Framework?

We invite all California districts and charter management organizations (CMOs) to apply to this NO-COST professional learning opportunity.

Accepted districts and CMOs will receive a \$3,000 stipend to offset substitute coverage or travel.

Workshop Series Overview:

In these hybrid, focused workshops, your district/CMO team will:

- Learn about the expectations for materials from the 2023 CA Math Framework,
- Articulate the characteristics of HQIM with a special focus on Multilingual Learner students, with resources and support from English Learners Success Forum (ELSF), and
- Understand the importance of instructional materials and their impact on student learning,

Who Should Attend:

District/CMO team leads (e.g., Assistant Superintendent, TOSA, Curriculum Director) are required to attend the entirety of the workshop series. For our in-person day, as choosing and implementing the highest-quality mathematics materials includes bringing a variety of educational partners to the decision table, we ask that you bring a team of 5-8 educators with both teacher and district/CMO leadership.

Workshop Series Timeline:

Virtual Kick-Off Session: March 13, 2024 - 4:00-5:00 pm (your whole team is highly encouraged to attend)

In-Person Workshop: March 20, 2024 - 9:00am-4:00 pm

One-Day In-Person Session in Orange County, CA (Whole team **must** attend.)

Virtual Communities of Practice (3:30-5:00 pm - for team leads; other team members welcome to join.)

- **April 17, 2024**
- **May 8, 2024**
- **June 5, 2024**

Application Deadline: February 29, 2024

About Us:

The California Curriculum Collaborative (CalCurriculum) is a partnership between [EdReports](#) and [UnboundEd](#) (formerly Pivot Learning). CalCurriculum helps districts adopt and implement high-quality instructional materials by providing independent reviews, content-specific resources, and adoption and implementation guidance tailored to the California context.
